

NIMBLE CREATE

Easily build templates for personalized member communications

How you communicate with your members can make all the difference between an average and amazing member experience. Nimble Create is a user-friendly, visual template builder included with Nimble AMS that enables you to easily design templates for branded, personalized, and information-rich content, helping you deliver a stellar member experience.

Get ready to create

Build personalized documents and templates for branded communications such as:

-  **Transactional emails** individualized for a member's journey with your organization
-  **Certificates** that are pixel perfect for digital and print
-  **Detailed invoices and receipts** with personalized order information, graphics, and custom-formatted product details
-  **Abandoned cart notifications** with your brand style and customized message
-  **Event materials** such as personalized itineraries, badges and table place cards
-  **Renewal notifications** personalized for each member
-  **Donation letters and thank you messages** including campaign content, personal giving information and links to online giving
-  **Year in review summary** that give members a personalized view of the last year

Functionality at your fingertips

Automation and content distribution capabilities put you in control of member communications.

Automated processes

Save staff time and automate the member journey by sharing your content using Salesforce Flows.

*May require integration with bulk email sender, subject to Salesforce automation limitations.

Flexible display and distribution

Visually display data in the format your members and team want, and share information as web pages, PDFs, emails, and more.

Reusable templates

Create reusable templates to make material creation fast and consistently tell your brand story.

CSS themes

Build a consistent member experience by applying your organization's brand directly to reusable templates using CSS.

Optimizing your communications – no code.
