

NIMBLE AMS TOOLS

Supercharge your operations with Nimble AMS' exclusive tools

You need a modern association management solution that delivers the features and capabilities to engage your members and expand your reach in a whole new way. Your AMS should help you boost your ROI, not hold you back. Empower your fast-moving teams with exclusive Nimble AMS tools.

By making repetitive, time consuming tasks a thing of the past, Nimble Create, Nimble Fuse, and Nimble Query elevate the most trusted AMS built on Salesforce, Nimble AMS. The best part, these tools are included with Nimble AMS free of charge.

Easily build templates for personalized high-quality member communications

Quick and easy integrations with clicks, not code

Examine your data in almost infinite combinations without a developer

The American Foundry Society leveraged **Nimble Fuse** to integrate their Content Management System and Casting Supplier Directory in less than an hour. All with clicks, not code.

Nimble Create Create quality content to drive a superior member experience

Quickly build templates for branded, personalized, and information-rich content to deliver an amazing member experience. Nimble Create allows you to configure and customize member facing documents and communications – with clicks, not code.

Member centric communications
Automatically pull member data and other details straight from your Nimble AMS system into your content.

Cohesive member experience
Apply your organization's brand directly to all your business documents.

Member focused format
Create personalized documents and templates for branded communications such as certificates, invoices, and templated emails.

Nimble Fuse Nimble Fuse easily brings your teams and systems together

User-friendly point-and-click integrations for busy organizations. Nimble Fuse enables easy integrations that save IT expenses, increase staff efficiency and keep your organization moving forward.

Work together, better
Stick with the tools that work for you. Easily bring your teams and systems together with powerful integrations to Nimble AMS and Salesforce.

Encourage innovation
Setup integrations without developer help. Point and click setup turns your administrator into an integration specialist.

Member focus
Spend IT time and resources on technology projects that improve your member experience – not connecting your systems.

Nimble Query Nimble Query puts the power of SOQL in the hands of your administrators

Nimble Query makes it simple to build Salesforce Object Query Language (SOQL) queries. Examine your data in almost infinite combinations, display it in easy-to-understand formats, and use the resulting SOQL query with Nimble AMS and Salesforce customizations.

SOQL Queries made easy
Visual, point-and-click tool enables you to quickly create and edit queries without having to write SOQL query syntax.

Empower admins
SOQL empowers you to search Salesforce data that is beyond a simple report and without the need for a developer.

Request a demo to see how these Nimble AMS features can supercharge your operations.
